

Demeter-Felderzeugnisse GmbH

Contents

- I. Philosophy
- II. History
- III. Products
- IV. Services
- V. Brands

Philosophy

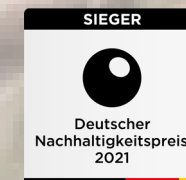

- We promote sustainable agriculture by:
 - Multiple projects and cooperation's with farmers
 - Various initiatives and projects in foreign countries (e.g.: Spain, Italy, France, Holland, etc.)
- We are pioneers in organic frozen products like:
 - Organic frozen vegetables
 - Organic frozen French fries
 - Organic frozen pizza
- We conclude different cooperation's according to the capabilities and possibilities of the individual farmers
- We early internationalized our packaging in order to create interesting organic alternatives to conventional products/trade for our European wholesale partners

History

- **1971** founding of the first cooperative of biodynamic farmers worldwide
- **1992** founding Demeter-Felderzeugnisse GmbH by the farmers cooperative as trade company for trading the products of the farmer members
- Today we are a modern company that unites agriculture and trade

Products

- Highest requirements to the origin of the raw material (organic ingredients)
- Highest requirement for a gentle processing to preserve the high quality of the raw materials
- Certified transparency
 - Demeter certified
 - FairBio certified
- Winner of different awards, e.g. the German sustainability award 2021

Services

- Development of innovative, delicious and natural products
- Establishment of long-term relationships with suppliers and customers for mutual benefits
- Individual and solution-oriented customer relationship and support
- Reliable and efficient trade procedures
